

# **Betamethasone Injection Formulation**

Version	Revision Date:	SDS Number:	Date of last issue: 05.10.2020
3.1	09.04.2021	2112662-00008	Date of first issue: 23.10.2017

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

<b>1.1 Product identifier</b> Trade name	:	Betamethasone Injection Formulation
1.2 Relevant identified uses of	the s	ubstance or mixture and uses advised against
Use of the Sub- stance/Mixture	:	Pharmaceutical
1.3 Details of the supplier of the	e saf	ety data sheet
Company	:	Organon & Co. 30 Hudson Street, 33nd floor 07302 Jersey City, New Jersey, U.S.A
Telephone	:	551-430-6000
E-mail address of person	:	EHSSTEWARD@organon.com

## **1.4 Emergency telephone number**

responsible for the SDS

215-631-6999

## **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

## Classification T.R. SEA No 28848

Reproductive toxicity, Category 1B Specific target organ toxicity - repeated exposure, Category 1 Long-term (chronic) aquatic hazard, Category 1 H360D: May damage the unborn child. H372: Causes damage to organs through prolonged or repeated exposure. H410: Very toxic to aquatic life with long lasting effects.

## 2.2 Label elements

#### Labelling T.R. SEA No 28848

Hazard pictograms	:	
Signal word	:	Danger
Hazard statements	:	<ul> <li>H360D May damage the unborn child.</li> <li>H372 Causes damage to organs through prolonged or repeated exposure.</li> <li>H410 Very toxic to aquatic life with long lasting effects.</li> </ul>

According to 13 December 2014, No:29204, "Ministry of Environment and Urbanization; Regulation on Safety data sheets regarding hazardous substances and mixtures; Part I".

# **Betamethasone Injection Formulation**

Version 3.1	Revision Date: 09.04.2021	SDS Number: 2112662-00008	Date of last issue: 05.10.2020 Date of first issue: 23.10.2017
Preca	autionary statements	P264 Wash ski P273 Avoid rele	becial instructions before use. n thoroughly after handling. ease to the environment. tective gloves/ protective clothing/ eye protec- on.
		Response: P308 + P313 If attention. P391 Collect sp	2

Hazardous components which must be listed on the label: betamethasone

## 2.3 Other hazards

None known.

# **SECTION 3: Composition/information on ingredients**

## 3.2 Mixtures

#### Components

Chemical name	CAS-No. EC-No. Index-No. Registration num- ber	Classification	Concentration (% w/w)
betamethasone	378-44-9 206-825-4	Acute Tox. 2; H330 Repr. 1B; H360D STOT RE 1; H372 (Pituitary gland, Immune system, muscle, thymus gland, Blood, Ad- renal gland) Aquatic Chronic 1; H410 M-Factor (Chronic aquatic toxicity): 1.000	>= 0,3 - < 1

For explanation of abbreviations see section 16.

According to 13 December 2014, No:29204, "Ministry of Environment and Urbanization; Regulation on Safety data sheets regarding hazardous substances and mixtures; Part I".

# **Betamethasone Injection Formulation**

Version	Revision Date:	SDS Number:	Date of last issue: 05.10.2020

## **SECTION 4: First aid measures**

4.1 Description of first aid meas	sure	S
General advice	:	
Protection of first-aiders	:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	:	Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.
4.2 Most important symptoms a	and e	effects, both acute and delayed
Risks	:	May damage the unborn child. Causes damage to organs through prolonged or repeated exposure.
4.3 Indication of any immediate	me	dical attention and special treatment needed
Treatment	:	Treat symptomatically and supportively.
SECTION 5: Firefighting mea	asur	es

11	Extinguishing media Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
	Unsuitable extinguishing media	:	None known.

# **Betamethasone Injection Formulation**

Vers 3.1	sion	Revision Date: 09.04.2021		OS Number: 12662-00008	Date of last issue: 05.10.2020 Date of first issue: 23.10.2017
5.2 Special hazards arising from Specific hazards during fire- fighting			substance or mixture Exposure to combustion products may be a hazard to heal		
	Hazardous combustion prod- ucts		:	Carbon oxides	
5.3	Advice	for firefighters			
	Specia for firef	I protective equipment ighters	:		e, wear self-contained breathing apparatus. tective equipment.
	Specific ods	c extinguishing meth-	:	cumstances and t Use water spray t	measures that are appropriate to local cir- the surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do

## **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures

barriers).

Personal precautions		Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
6.2 Environmental precautions		
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil

cannot be contained.

Retain and dispose of contaminated wash water.

Local authorities should be advised if significant spillages

## 6.3 Methods and material for containment and cleaning up

Methods for cleaning up	<ul> <li>Soak up with inert absorbent material.</li> <li>For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent.</li> <li>Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.</li> <li>Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.</li> </ul>
-------------------------	--

## 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

## **SECTION 7: Handling and storage**

## 7.1 Precautions for safe handling

	Technical measures :		See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
	Local/Total ventilation :		If sufficient ventilation is unavailable, use with local exhaust ventilation.
	Advice on safe handling :		Do not get on skin or clothing. Do not breathe mist or vapours. Do not swallow. Avoid contact with eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Keep container tightly closed. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment.
	Hygiene measures :		If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contami- nated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.
2	Conditions for safe storage, inc	cl	uding any incompatibilities

## 7.2

Requirements for storage areas and containers	:	Keep in properly labelled containers. Store locked up. Keep tightly closed. Store in accordance with the particular national regulations.
Advice on common storage	:	Do not store with the following product types: Strong oxidizing agents Organic peroxides Explosives Gases
7.3 Specific end use(s) Specific use(s)	:	No data available

According to 13 December 2014, No:29204, "Ministry of Environment and Urbanization; Regulation on Safety data sheets regarding hazardous substances and mixtures; Part I".

# **Betamethasone Injection Formulation**

Version	Revision Date:	SDS Number:	Date of last issue: 05.10.2020
3.1	09.04.2021	2112662-00008	Date of first issue: 23.10.2017

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

#### **Occupational Exposure Limits**

Components	ComponentsCAS-No.Value type (For of exposure)betamethasone378-44-9TWA		Control parameters	Basis
betamethasone			1 µg/m3 (OEB 4)	Internal
	Further inform	nation: Skin		
		Wipe limit	10 μg/100 cm²	Internal

#### 8.2 Exposure controls

#### Engineering measures

All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.

Essentially no open handling permitted.

Use closed processing systems or containment technologies.

If handled in a laboratory, use a properly designed biosafety cabinet, fume hood, or other containment device if the potential exists for aerosolization. If this potential does not exist, handle over lined trays or benchtops.

#### Personal protective equipment

Eye protection :	Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.
Hand protection	
Material :	Chemical-resistant gloves
Remarks : Skin and body protection :	Consider double gloving. Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove potentially contaminated clothing.
Respiratory protection : Filter type :	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection. Equipment should conform to TS EN 143 Particulates type (P)

## **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

Appearance

: liquid

3.1	09.04.2021	2112662-00008	Date of first issue: 23.10.2017

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
