#### SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam
		Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.

ersion .5	Revision Date: 09.04.2021		DS Number: 341078-00009	Date of last issue: 10.10.2020 Date of first issue: 19.07.2017
Specific hazards during fire fighting		:		explosive mixtures with air. bustion products may be a hazard to health.
Haza ucts	rdous combustion prod-	:	Carbon oxides	
Specific extinguishing meth- ods		:	cumstances and Use water spray	g measures that are appropriate to local cir- the surrounding environment. to cool unopened containers. ged containers from fire area if it is safe to do
	al protective equipment e-fighters	:	In the event of fire	e, wear self-contained breathing apparatus. tective equipment.

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Sweep up or vacuum up spillage and collect in suitable container for disposal. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

#### SECTION 7. HANDLING AND STORAGE

Technical measures Local/Total ventilation	CON : If suff	Engineering measures under EXPOSURE TROLS/PERSONAL PROTECTION section. icient ventilation is unavailable, use with local exhaust
Advice on safe handling	Do no Do no Avoic Wash Hand practi asses Keep Do no Take	ation. t get on skin or clothing. t breathe dust, fume, gas, mist, vapors or spray. t swallow. contact with eyes. skin thoroughly after handling. le in accordance with good industrial hygiene and safety ce, based on the results of the workplace exposure ssment container tightly closed. ot eat, drink or smoke when using this product. care to prevent spills, waste and minimize release to the onment.

Version 3.5	Revision Date: 09.04.2021	SDS Number: 1841078-00009	Date of last issue: 10.10.2020 Date of first issue: 19.07.2017	
Hygiene measures		<ul> <li>If exposure to chemical is likely during typical use, provid flushing systems and safety showers close to the working place.</li> <li>When using do not eat, drink or smoke.</li> <li>Wash contaminated clothing before re-use.</li> <li>The effective operation of a facility should include review engineering controls, proper personal protective equipme appropriate degowning and decontamination procedures industrial hygiene monitoring, medical surveillance and th use of administrative controls.</li> </ul>

Betamethasone	378-44-9	TWA	1 µg/m3 (OEB 4)	Internal
	Further inforr	nation: Skin		
		Wipe limit	10 µg/100 cm <sup>2</sup>	Internal

#### Ingredients with workplace control parameters

Engineering measures

 Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., vacuum conveying from a closed system, packout head with inflatable seal from stationary container, ventilated enclosure, etc.). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Essentially no open handling permitted. Use closed processing systems or containment technologies.

Version 3.5	Revision Date: 09.04.2021		Number: 078-00009	Date of last issue: 10.10.2020 Date of first issue: 19.07.2017

#### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### **SECTION 15. REGULATORY INFORMATION**

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

Federal Law for the control of chemical precursors, : Not applicable essential chemical products and machinery for producing capsules, tablets and pills.

#### The ingredients of this product are reported in the following inventories:

AICS	:	not determined
DSL	:	not determined
