SECTION	1. Idontification	of the substance/mi	vture and of the company/undert

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier Trade name	Betamethasone / Clotrimazole Ointment F	ormulation
1.2 Relevant identified uses of	substance or mixture and uses advised a	gainst
Use of the Sub- stance/Mixture	Pharmaceutical	
1.3 Details of the supplier of th	afety data sheet	
Company	Organon & Co. 30 Hudson Street, 33nd floor 07302 Jersey City, New Jersey, U.S.A	
Telephone	551-430-6000	
E-mail address of person responsible for the SDS	EHSSTEWARD@organon.com	

1.4 Emergency telephone number

215-631-6999

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

H360D: May damage the unborn child.
H372: Causes damage to organs through pro-
longed or repeated exposure.
H410: Very toxic to aquatic life with long lasting
effects.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms	:	
Signal word	:	Danger
Hazard statements	:	 H360D May damage the unborn child. H372 Causes damage to organs through prolonged or repeated exposure. H410 Very toxic to aquatic life with long lasting effects.

according to Regulation (EC) No. 1907/2006

Betamethasone / Clotrimazole Ointment Formulation

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
Protection of first-aiders	:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	:	Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.
4.2 Most important symptoms	and e	effects, both acute and delayed
Risks	:	May damage the unborn child. Causes damage to organs through prolonged or repeated exposure.
4.3 Indication of any immedia	te mec	dical attention and special treatment needed
Treatment	:	Treat symptomatically and supportively.

SECTION 5: Firefighting measures

5.1	Extinguishing	media
-----	---------------	-------

Suitable extinguishing media : Water spray

Vers 6.4	sion	Revision Date: 10.10.2020		0S Number: 0698-00013	Date of last issue: 23.03.2020 Date of first issue: 08.04.2016
				Alcohol-resistant Carbon dioxide (C Dry chemical	
Unsuitable extinguishing media		able extinguishing	:	None known.	
5.2 \$	Special	hazards arising from	the	substance or mi	xture
	Specific hazards during fire- fighting		:	Exposure to com	pustion products may be a hazard to health.
	Hazard ucts	ous combustion prod-	:	Carbon oxides	
5.3	Advice	for firefighters			
		l protective equipment	:		e, wear self-contained breathing apparatus. tective equipment.
	Specific ods	c extinguishing meth-	:	cumstances and to Use water spray to	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro-
6.2 Environmental precautions		tective equipment recommendations (see section 8).
Environmental precautions		Avoid release to the environment.
Environmental precautions	•	Prevent further leakage or spillage if safe to do so.
		Retain and dispose of contaminated wash water.
		Local authorities should be advised if significant spillages cannot be contained.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Sweep up or vacuum up spillage and collect in suitable con- tainer for disposal. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling Technical measures See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section. Local/Total ventilation If sufficient ventilation is unavailable, use with local exhaust : ventilation. Do not get on skin or clothing. Advice on safe handling Do not breathe dust, fume, gas, mist, vapours or spray. Do not swallow. Avoid contact with eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment Keep container tightly closed. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment. If exposure to chemical is likely during typical use, provide eye Hygiene measures flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls. 7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers	:	Keep in properly labelled containers. Store locked up. Keep tightly closed. Store in accordance with the particular nationa regulations.	
Advice on common storage	:	Do not store with the following product types: Strong oxidizing agents Organic peroxides Explosives Gases	
7.3 Specific end use(s) Specific use(s)	:	No data available	

Version	Revision Date:	SDS Number:	Date of last issue: 23.03.2020
6.4	10.10.2020	610698-00013	Date of first issue: 08.04.2016

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis			
Petrolatum	8009-03-8	OELV - 8 hrs	5 mg/m3	IE OEL			
		(TWA) (inhalable					
		fraction)					
			cific short-term exposure lim				
	figure three tir	nes the long-term e>	posure limit value should be	eused			
White mineral oil	8042-47-5	OELV - 8 hrs	5 mg/m3	IE OEL			
(petroleum)		(TWA) (inhalable					
		fraction)					
	Further information: Where no specific short-term exposure limit is listed, a						
	figure three times the long-term exposure limit value should be used						
clotrimazole	23593-75-1	TWA	0.2 mg/m3 (OEB 2)	Internal			
betamethasone	petamethasone 378-44-9 TWA		1 µg/m3 (OEB 4)	Internal			
	Further inform	Further information: Skin					
		Wipe limit	10 μg/100 cm²	Internal			

Predicted No Effect Concentration (PNEC) according to Regulation (EC) No. 1907/2006:

Substance name	Environmental Compartment	Value
Petrolatum	Oral (Secondary Poisoning)	9.33 mg/kg food

8.2 Exposure controls

Engineering measures

Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., vacuum conveying from a closed system, packout head with inflatable seal from stationary container, ventilated enclosure, etc.).

All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.

Essentially no open handling permitted.

Use closed processing systems or containment technologies.

Personal protective equipment

		Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols. Chemical-resistant gloves			
Hand protection					
Material	:	Chemical-resistant gloves			
Remarks Skin and body protection	:	Consider double gloving. Work uniform or laboratory coat.			

Version 6.4	Revision Date: 10.10.2020	SDS Number: 610698-00013	Date of last issue: 23.03.2020 Date of first issue: 08.04.2016

Viscosity Viscosity, kinematic Explosive properties		:	 No data available Not explosive 				
Oxidizing properties		:	The substance of	or mixture is not classified as oxidizing.			
9.2 Other information Flammability (liquids) Particle size		:	No data availabl Not applicable	e			

SECTION 10: Stability and reactivity

10.1 Reactivity

Not classified as a reactivity hazard.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions : Can react with strong oxidizing agents.

10.4 Conditions to avoid

Conditions to avoid : None known.

10.5 Incompatible materials

Materials to avoid : Oxidizing agents

10.6 Hazardous decomposition products

No hazardous decomposition products are known.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Information on likely routes of	:	Skin contact
exposure		Ingestion
		Eye contact

Acute toxicity

Not classified based on available information.

Product:

Acute oral toxicity	:	Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method
Acute dermal toxicity	:	Acute toxicity estimate: > 2,000 mg/kg

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product	 Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.
Contaminated packaging	 Empty containers should be taken to an approved waste han- dling site for recycling or disposal. If not otherwise specified: Dispose of as unused product.

14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Remarks

: Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, preparations and articles (Annex XVII)	:	Not applicable
REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59).	:	Not applicable
REACH - List of substances subject to authorisation (Annex XIV)	:	Not applicable
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
Regulation (EU) 2019/1021 on persistent organic pollu- tants (recast)	:	Not applicable
Regulation (EC) No 649/2012 of the European Parlia- ment and the Council concerning the export and import of dangerous chemicals	:	Not applicable

Seveso III: Directive 2012/18/EU of the European Parliament and of the Council on the control of major-accident hazards involving dangerous substances.
