SECTION	1. PRODUCT AND C	СОМРА		ATION
Produ	uct name	:	Betamethasor	ne / Salicylic Acid Ointment Formulation

Manufacturer or supplier's details							
Company	:	Organon & Co.					
Address	:	Rua Treze de Maio, 1161 Campinas, São Paulo, Brazil B-2220					
Telephone	:	551-430-6000					
Emergency telephone	:	215-631-6999					
E-mail address	:	EHSSTEWARD@organon.com					

Recommended use of the chemical and restrictions on use

Recommended use	: Pharmaceut	ical

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification in accordance with ABNT NBR 14725 Standard

Acute toxicity (Inhalation)	:	Category 5
Skin irritation	:	Category 3
Serious eye damage	:	Category 1
Reproductive toxicity	:	Category 1B
Specific target organ toxicity - repeated exposure	:	Category 1 (Pituitary gland, Immune system, muscle, thymus gland, Blood, Adrenal gland)
Long-term (chronic) aquatic hazard	:	Category 1

GHS label elements in accordance with ABNT NBR 14725 Standard

Hazard pictograms	:	
Signal Word	:	Danger
Hazard Statements	:	H316 Causes mild skin irritation. H318 Causes serious eye damage. H333 May be harmful if inhaled. H360D May damage the unborn child. H372 Causes damage to organs (Pituitary gland, Immune

Version 4.3	Revision Date: 09.04.2021	SDS Number: 1841156-00012	Date of last issue: 10.10.2020 Date of first issue: 21.08.2017
		prolonged or re	e, thymus gland, Blood, Adrenal gland) through peated exposure. c to aquatic life with long lasting effects.
Preca	autionary Statements	P273 Avoid rele	pecial instructions before use. ease to the environment. tective gloves/ protective clothing/ eye protec- ction.
		water for severa and easy to do. CENTER/ docto	exposed or concerned: Get medical advice/

Other hazards which do not result in classification

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture :

Components

Chemical name	CAS-No.	Classification	Concentration (% w/w)
Petrolatum	8009-03-8		86,93
Paraffin oil	8012-95-1	Aspiration hazard, Category 1 Long-term (chronic) aquatic hazard, Category 4	10
Salicylic acid	69-72-7	Acute toxicity (Oral), Category 4 Acute toxicity (Inhala- tion), Category 2 Acute toxicity (Der- mal), Category 4 Skin irritation, Category 2 Serious eye damage, Category 1 Reproductive toxicity, Category 2	3
Betamethasone	378-44-9	Acute toxicity (Inhala- tion), Category 2 Reproductive toxicity, Category 1B	0,064

Version	Revision Date:	SDS Number:	Date of last issue: 10.10.2020	
4.3	09.04.2021	1841156-00012	Date of first issue: 21.08.2017	
			Specific target organ toxicity - repeated exposure (Pituitary gland, Immune sys- tem, muscle, thymus gland, Blood, Adrenal gland), Category 1 Long-term (chronic) aquatic hazard, Category 1	

SECTION 4. FIRST AID MEASURES

General advice	:	In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	:	
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and delayed	:	Causes mild skin irritation. Causes serious eye damage. May be harmful if inhaled. May damage the unborn child. Causes damage to organs through prolonged or repeated
Protection of first-aiders	:	exposure. First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
Notes to physician	:	Treat symptomatically and supportively.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	
Specific hazards during fire	:	Exposure to combustion products may be a hazard to health.

Version 4.3	Revision Date: 09.04.2021		OS Number: 41156-00012	Date of last issue: 10.10.2020 Date of first issue: 21.08.2017
fightir Haza ucts	ng rdous combustion prod-	:	Carbon oxides	
Speci ods	fic extinguishing meth-	:	cumstances and Use water spray	g measures that are appropriate to local cir- the surrounding environment. to cool unopened containers. ged containers from fire area if it is safe to do
	al protective equipment e-fighters	:		e, wear self-contained breathing apparatus. tective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- : tive equipment and emer- gency procedures	Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions :	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for : containment and cleaning up	Sweep up or vacuum up spillage and collect in suitable container for disposal. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	:	If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advice on safe handling	:	Do not get on skin or clothing.
C C		Do not breathe dust, fume, gas, mist, vapors or spray.
		Do not swallow.
		Do not get in eyes.
		Wash skin thoroughly after handling.
		Handle in accordance with good industrial hygiene and safety
		practice, based on the results of the workplace exposure
		assessment
		Keep container tightly closed.
		Do not eat, drink or smoke when using this product.
		Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye

Version 4.3	Revision Date: 09.04.2021	SDS Number: 1841156-00012	Date of last issue: 10.10.2020 Date of first issue: 21.08.2017
		place. When using do r Wash contamina The effective op engineering con appropriate dege	a and safety showers close to the working not eat, drink or smoke. ated clothing before re-use. eration of a facility should include review of trols, proper personal protective equipment, owning and decontamination procedures, e monitoring, medical surveillance and the ative controls.
Condi	tions for safe storage	: Keep in properly Store locked up. Keep tightly clos

Ingredients with workplace control parameters

Engineering measures

 Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., vacuum conveying from a closed system, packout head with inflatable seal from stationary container, ventilated enclosure, etc.). All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Essentially no open handling permitted. Use closed processing systems or containment technologies.

Version 4.3	Revision Date: 09.04.2021		S Number: 11156-00012	Date of last issue: 10.10.2020 Date of first issue: 21.08.2017
Pers	onal protective equipn	nent		
Fi	iratory protection Iter type I protection		exposure assessr recommended gu	exhaust ventilation is not available or nent demonstrates exposures outside the idelines, use respiratory protection. lates and organic vapor type
М	aterial	:	Chemical-resistar	nt gloves
Eyer	emarks protection and body protection	:	 Consider double gloving. Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty comists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if the potential for direct contact to the face with dusts, minaerosols. Work uniform or laboratory coat. Additional body garments should be used based up task being performed (e.g., sleevelets, apron, gaund disposable suits) to avoid exposed skin surfaces. Use appropriate degowning techniques to remove protection. 	

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	:	ointment
Color	:	white, translucent
Odor	:	No data available
Odor Threshold	:	No data available
рН	:	4,6 - 5,3
Melting point/freezing point	:	No data available
Initial boiling point and boiling range	:	No data available
Flash point	:	No data available
Evaporation rate	:	No data available
Flammability (solid, gas)	:	Not classified as a flammability hazard
Flammability (liquids)	:	No data available
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available

Versior 4.3	n Revision Date: 09.04.2021		e of last issue: 10.10.2020 e of first issue: 21.08.2017
Va	apor pressure	: No data available	
Re	elative vapor density	: No data available	
Re	elative density	: No data available	
De	ensity	: No data available	
Sc	blubility(ies) Water solubility	: No data available	
	artition coefficient: n- tanol/water	: No data available	
	itoignition temperature	: No data available	
De	ecomposition temperature	: No data available	
Vi	scosity Viscosity, kinematic	: No data available	
Ex	plosive properties	: Not explosive	
	kidizing properties plecular weight	: The substance or mix : No data available	ture is not classified as oxidizing.
	article size	: No data available	

SECTION 10. STABILITY AND REACTIVITY

Reactivity Chemical stability Possibility of hazardous reac- tions	:	Not classified as a reactivity hazard. Stable under normal conditions. Can react with strong oxidizing agents.
Conditions to avoid Incompatible materials Hazardous decomposition products	:	None known. Oxidizing agents No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure	:	Skin contact Ingestion Eye contact
Acute toxicity May be harmful if inhaled.		
Product:		
Acute oral toxicity	:	Acute toxicity estimate: > 5.000 mg/kg Method: Calculation method

					: Intramuscular oxicity: LOAEL: 1 mg/kg body weight ions were observed.
	Reprod sessme	uctive toxicity - As- ent	:	Clear evidence of animal experimen	adverse effects on development, based on ts.

STOT-single exposure

Not classified based on available information.

Version 4.3	Revision Date: 09.04.2021	SDS Number: 1841156-00012	Date of last issue: 10.10.2020 Date of first issue: 21.08.2017
Caus			une system, muscle, thymus gland, Blood, Ad-
	gland) through prolon	ged or repeated expo	osure.
Com	ponents:		
	methasone:		
Targe	et Organs	: Pituitary gland Adrenal gland	d, Immune system, muscle, thymus gland, Blooc
Asse	ssment		age to organs through prolonged or repeated
Repe	ated dose toxicity		
Com	ponents:		
Petro	platum:		
		: Rat : 5.000 mg/kg : Ingestion : 2 y	
Paraf	ffin oil:		
		: Rat, female : 161 mg/kg : Ingestion : 90 Days	
Salic	ylic acid:		
		: Rat : 50 mg/kg : Ingestion : 2 y	
Expo		: Rat : 500 mg/kg : Oral : 3 d : Liver	
Beta	methasone:		
Speci LOAE Applic Expos	ies	: Rabbit : 0.05 % : Skin contact : 10 - 30 d : Pituitary gland	d, Immune system, muscle
		: Rat : 0.05 % : Skin contact : 8 Weeks	

Version 4.3	Revision Date: 09.04.2021	SDS Number: 1841156-00012	Date of last issue: 10.10.2020 Date of first issue: 21.08.2017
Target Organs		: thymus gland	
Species LOAEL Application Route Exposure time Target Organs		: Mouse : 0.1 % : Skin contact : 8 Weeks : thymus gland	
Species LOAEL Application Route Exposure time Target Organs		: Dog : 0,05 mg/kg : Oral : 28 d : Blood, thymus	gland, Adrenal gland

Aspiration toxicity

Not classified based on available information.

Components:

Paraffin oil:

The substance or mixture is known to cause human aspiration toxicity hazards or has to be regarded as if it causes a human aspiration toxicity hazard.

Experience with human exposure

Components:

Salicylic acid: Skin contact Eye contact Ingestion	 Symptoms: Skin irritation Symptoms: Severe irritation Symptoms: Gastrointestinal discomfort, hearing loss, Dizziness, electrolyte imbalance
Betamethasone:	
Inhalation Skin contact	Target Organs: Adrenal glandSymptoms: Redness, pruritis, Irritation

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity Components: **Petrolatum:** Toxicity to fish LL50 (Pimephales promelas (fathead minnow)): > 100 mg/l : Exposure time: 96 h Test substance: Water Accommodated Fraction Method: OECD Test Guideline 203 Remarks: Based on data from similar materials Toxicity to daphnia and other : EC50 (Daphnia magna (Water flea)): > 10.000 mg/l aquatic invertebrates Exposure time: 48 h Test substance: Water Accommodated Fraction

Disposal methods

Waste from residues		Dispose of in accordance with local regulations.
Contaminated packaging	•	Empty containers should be taken to an approved waste handling site for recycling or disposal.
		If not otherwise specified: Dispose of as unused product.

Class	:	9
Packing group	:	III
Labels	:	9
Hazard Identification Number	:	90

Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

National List of Carcinogenic Agents for Humans - (LINACH)	:	Not applicable
Brazil. List of chemicals controlled by the Federal Police	:	Not applicable

International Regulations

The ingredients of this product are reported in the following inventories:

AICS	:	not determined
DSL	:	not determined
IECSC	:	not determined

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
