

# SAFETY DATA SHEET

## Corifollitropin Alfa Formulation

Version 4.4      Revision Date: 16.10.2020      SDS Number: 26213-00017      Date of last issue: 23.03.2020  
Date of first issue: 29.10.2014

---

### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : Corifollitropin Alfa Formulation

#### Manufacturer or supplier's details

Company name of supplier : Organon & Co.  
Address : Avenida 16 de Septiembre No. 301  
Xaltocan - Xochimilco Mexico 16090  
Telephone : 52 55 57284444  
Emergency telephone : 215-631-6999  
E-mail address : EHSSTEWARD@organon.com

#### Recommended use of the chemical and restrictions on use

Recommended use : Pharmaceutical

---

### SECTION 2. HAZARDS IDENTIFICATION

#### GHS Classification

Reproductive toxicity : Category 1B

#### GHS label elements

Hazard pictograms :

Signal Word : Danger

Hazard Statements : H360F May damage fertility.

Precautionary Statements : **Prevention:**  
P201 Obtain special instructions before use.  
P202 Do not handle until all safety precautions have been read and understood.  
P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.  
**Response:**  
P308 + P313 IF exposed or concerned: Get medical advice/ attention.  
**Storage:**  
P405 Store locked up.  
**Disposal:**  
P501 Dispose of contents/ container to an approved waste disposal plant.

#### Other hazards

None known.

---

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

## Corifollitropin Alfa Formulation

Version 4.4      Revision Date: 16.10.2020      SDS Number: 26213-00017      Date of last issue: 23.03.2020  
Date of first issue: 29.10.2014

Substance / Mixture : Mixture

**Components**

| Chemical name        | CAS-No.     | Concentration (% w/w) |
|----------------------|-------------|-----------------------|
| Sucrose              | 57-50-1     | >= 5 -< 10            |
| Corifollitropin Alfa | 195962-23-3 | >= 0.01 -< 0.1        |

**SECTION 4. FIRST AID MEASURES**

- General advice : In the case of accident or if you feel unwell, seek medical advice immediately.  
When symptoms persist or in all cases of doubt seek medical advice.
- If inhaled : If inhaled, remove to fresh air.  
Get medical attention.
- In case of skin contact : In case of contact, immediately flush skin with soap and plenty of water.  
Remove contaminated clothing and shoes.  
Get medical attention.  
Wash clothing before reuse.  
Thoroughly clean shoes before reuse.
- In case of eye contact : Flush eyes with water as a precaution.  
Get medical attention if irritation develops and persists.
- If swallowed : If swallowed, DO NOT induce vomiting.  
Get medical attention.  
Rinse mouth thoroughly with water.
- Most important symptoms and effects, both acute and delayed : May damage fertility.
- Protection of first-aiders : First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
- Notes to physician : Treat symptomatically and supportively.

**SECTION 5. FIRE-FIGHTING MEASURES**

- Suitable extinguishing media : Water spray  
Alcohol-resistant foam  
Carbon dioxide (CO<sub>2</sub>)  
Dry chemical
- Unsuitable extinguishing media : None known.
- Specific hazards during fire fighting : Exposure to combustion products may be a hazard to health.
- Hazardous combustion products : Carbon oxides
- Specific extinguishing methods : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.  
Use water spray to cool unopened containers.  
Remove undamaged containers from fire area if it is safe to do so.  
Evacuate area.

## Corifollitropin Alfa Formulation

|         |                |             |                                 |
|---------|----------------|-------------|---------------------------------|
| Version | Revision Date: | SDS Number: | Date of last issue: 23.03.2020  |
| 4.4     | 16.10.2020     | 26213-00017 | Date of first issue: 29.10.2014 |

---

Special protective equipment for fire-fighters : In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

---

**SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures : Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).

Environmental precautions : Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for containment and cleaning up : Soak up with inert absorbent material. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

---

**SECTION 7. HANDLING AND STORAGE**

Technical measures : See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.

Local/Total ventilation : If sufficient ventilation is unavailable, use with local exhaust ventilation.

Advice on safe handling : Do not get on skin or clothing. Do not breathe vapors or spray mist. Do not swallow. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment. Keep container tightly closed. Take care to prevent spills, waste and minimize release to the environment.

Hygiene measures : If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment,

## Corifollitropin Alfa Formulation

Version 4.4      Revision Date: 16.10.2020      SDS Number: 26213-00017      Date of last issue: 23.03.2020  
Date of first issue: 29.10.2014

- appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.
- Conditions for safe storage : Keep in properly labeled containers.  
Store locked up.  
Keep tightly closed.  
Store in accordance with the particular national regulations.
- Materials to avoid : Do not store with the following product types:  
Strong oxidizing agents  
Organic peroxides  
Explosives  
Gases

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## Ingredients with workplace control parameters

| Components           | CAS-No.     | Value type<br>(Form of exposure) | Control parameters / Permissible concentration | Basis             |
|----------------------|-------------|----------------------------------|--|-------------------|
| Sucrose              | 57-50-1     | VLE-PPT                          | 10 mg/m <sup>3</sup>                           | NOM-010-STPS-2014 |
|                      |             | TWA                              | 10 mg/m <sup>3</sup>                           | ACGIH             |
| Corifollitropin Alfa | 195962-23-3 | TWA                              | 8 µg/m <sup>3</sup> (OEB 4)                    | Internal          |
|                      |             | Wipe limit                       | 80 µg/100 cm <sup>2</sup>                      | Internal          |

- Engineering measures** : All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.  
Essentially no open handling permitted.  
Use closed processing systems or containment technologies.  
If handled in a laboratory, use a properly designed biosafety cabinet, fume hood, or other containment device if the potential exists for aerosolization. If this potential does not exist, handle over lined trays or benchtops.

## Personal protective equipment

- Respiratory protection : If adequate local exhaust ventilation is not available or exposure assessment demonstrates exposures outside the recommended guidelines, use respiratory protection.
- Filter type : Particulates type
- Hand protection
- Material : Chemical-resistant gloves
- Remarks : Consider double gloving.
- Eye protection : Wear safety glasses with side shields or goggles.  
If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles.  
Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.
- Skin and body protection : Work uniform or laboratory coat.  
Additional body garments should be used based upon the

Explosive properties                   : Not explosive

Oxidizing properties                 : The substance or mixture is not classified as oxidizing.

Particle size                            : Not applicable

---

### SECTION 10. STABILITY AND REACTIVITY

Reactivity                               : Not classified as a reactivity hazard.

Chemical stability                    : Stable under normal conditions.

Possibility of hazardous reac-     : Can react with strong oxidizing agents.  
tions

Conditions to avoid                   : None known.

Incompatible materials               : Oxidizing agents

Hazardous decomposition            : No hazardous decomposition products are known.  
products

---

### SECTION 11. TOXICOLOGICAL INFORMATION

#### Information on likely routes of exposure

Inhalation  
Skin contact  
Ingestion  
Eye contact

#### Acute toxicity

Not classified based on available information.

#### Components:

##### Sucrose:

Acute oral toxicity                    : LD50 (Rat): 29,700 mg/kg

#### Skin corrosion/irritation

Not classified based on available information.

#### Serious eye damage/eye irritation

Not classified based on available information.

#### Respiratory or skin sensitization

##### Skin sensitization

Not classified based on available information.

##### Respiratory sensitization

Not classified based on available information.

##### Germ cell mutagenicity

Not classified based on available information.

#### Components:

##### Sucrose:

---

Genotoxicity in vitro : Test Type: In vitro mammalian cell gene mutation test  
Result: negative

**Corifollitropin Alfa:**

Genotoxicity in vitro : Test Type: Bacterial reverse mutation assay (AMES)  
Method: OECD Test Guideline 471  
Result: negative

Test Type: In vitro mammalian cell gene mutation test  
Test system: human lymphoblastoid cells  
Method: Mutagenicity (in vitro mammalian cytogenetic test)  
Result: negative

Genotoxicity in vivo : Test Type: Micronucleus test  
Species: Rat  
Method: Mutagenicity (micronucleus test)  
Result: negative

Germ cell mutagenicity - Assessment : Weight of evidence does not support classification as a germ cell mutagen.

**Carcinogenicity**

Not classified based on available information.

**Reproductive toxicity**

May damage fertility.

**Components:****Corifollitropin Alfa:**

Effects on fertility : Species: Rat  
Application Route: Subcutaneous  
Duration of Single Treatment: 2 d  
Fertility: LOAEL: 2 µg/kg  
Result: Superovulation

Effects on fetal development : Test Type: Fertility/early embryonic development  
Species: Rat  
Application Route: Subcutaneous  
Developmental Toxicity: LOAEL: 0.8 µg/kg  
Result: Postimplantation loss.  
Remarks: The mechanism or mode of action is not relevant in humans.

Test Type: Fertility/early embryonic development  
Species: Rabbit  
Application Route: Subcutaneous  
Developmental Toxicity: LOAEL: 0.9 µg/kg  
Result: Teratogenic potential., Postimplantation loss.  
Remarks: The mechanism or mode of action is not relevant in humans.

Reproductive toxicity - Assessment : Clear evidence of adverse effects on sexual function and fertility, based on animal experiments.

## Corifollitropin Alfa Formulation

Version 4.4      Revision Date: 16.10.2020      SDS Number: 26213-00017      Date of last issue: 23.03.2020  
Date of first issue: 29.10.2014

---

**STOT-single exposure**

Not classified based on available information.

**STOT-repeated exposure**

Not classified based on available information.

**Repeated dose toxicity****Components:****Corifollitropin Alfa:**

Species : Rat  
LOAEL : 0.000164 mg/kg  
Application Route : Subcutaneous  
Exposure time : 13 Weeks  
Target Organs : Reproductive organs, Endocrine system

Species : Dog  
LOAEL : 0.00041 mg/kg  
Application Route : Subcutaneous  
Exposure time : 39 Weeks  
Target Organs : Endocrine system, Reproductive organs

**Aspiration toxicity**

Not classified based on available information.

**Experience with human exposure****Components:****Corifollitropin Alfa:**

Ingestion : Symptoms: Nausea, Headache, Fatigue, breast tenderness

---

**SECTION 12. ECOLOGICAL INFORMATION****Ecotoxicity**

No data available

**Persistence and degradability**

No data available

**Bioaccumulative potential****Components:****Sucrose:**

Partition coefficient: n- : Pow: < 1  
octanol/water

**Mobility in soil**

No data available

**Other adverse effects**

No data available

Date of first issue: 29.10.2014

---

### SECTION 13. DISPOSAL CONSIDERATIONS

#### Disposal methods

Waste from residues : Dispose of in accordance with local regulations.  
Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.  
If not otherwise specified: Dispose of as unused product.

---

### SECTION 14. TRANSPORT INFORMATION

#### International Regulations

##### UNRTDG

Not regulated as a dangerous good

##### IATA-DGR

Not regulated as a dangerous good

##### IMDG-Code

Not regulated as a dangerous good

#### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

#### Domestic regulation

##### NOM-002-SCT

Not regulated as a dangerous good

#### Special precautions for user

Not applicable

---

### SECTION 15. REGULATORY INFORMATION

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

Federal Law for the control of chemical precursors, essential chemical products and machinery for producing capsules, tablets and pills. : Hydrochloric acid

#### The ingredients of this product are reported in the following inventories:

AICS : not determined

DSL : not determined

IECSC : not determined
