Section 1	: Identification			
Produ	uct name	:	Corifollitropin Alf	a Formulation
Manu	ifacturer or supplier's d	etai	s	
Comp	bany	:	Organon & Co.	
Addre	ess	:	30 Hudson Stree Jersey City, New	et, 33nd floor / Jersey, U.S.A 07302
Telep	hone	:	551-430-6000	
Emer	gency telephone number	:	215-631-6999	
E-ma	il address	:	EHSSTEWARD	@organon.com
Reco	mmended use of the ch	nemi	cal and restriction	ons on use
Reco	mmended use	:	Pharmaceutical	
Section 2	: Hazard identification			
GHS	Classification			
Repro	oductive toxicity	:	Category 1B	
GHS	label elements			
Haza	rd pictograms	:		
Signa	Il word	:	Danger	
Haza	rd statements	:	H360F May dam	age fertility.
Preca	autionary statements	:	P202 Do not har and understood. P281 Use person Response: P308 + P313 IF attention. Storage: P405 Store locket Disposal:	nal protective equipment as required. exposed or concerned: Get medical advice/

Version	Revision Date:	SDS Number:	Date of last issue: 23.03.2020
4.10	16.10.2020	26218-00017	Date of first issue: 29.10.2014

Other hazards which do not result in classification

None known.

Section 3: Composition/information on ingredients

Substance / Mixture : Mixture

Components

Chemical name	CAS-No.	Concentration (% w/w)
Sucrose	57-50-1	< 10
Corifollitropin Alfa	195962-23-3	>= 0.01 -< 0.3

Section 4: First-aid measures

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	:	
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.
Most important symptoms and effects, both acute and delayed	:	May damage fertility.
Protection of first-aiders	:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
Notes to physician	:	Treat symptomatically and supportively.

Section 5: Fire-fighting measures

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire- fighting	:	Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Carbon oxides
Specific extinguishing meth-	:	Use extinguishing measures that are appropriate to local cir-

Version 4.10	Revision Date: 16.10.2020		9S Number: 218-00017	Date of last issue: 23.03.2020 Date of first issue: 29.10.2014
	s ecial protective equipment firefighters	:	Use water spray to Remove undamag so. Evacuate area.	he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do , wear self-contained breathing apparatus. ective equipment.
Section	6: Accidental release me	eas	ures	
tive	rsonal precautions, protec- e equipment and emer- ncy procedures	:		ective equipment. ing advice (see section 7) and personal pro- recommendations (see section 8).
En	vironmental precautions	:	Prevent spreading barriers). Retain and dispos	akage or spillage if safe to do so. g over a wide area (e.g. by containment or oil e of contaminated wash water. should be advised if significant spillages
	thods and materials for ntainment and cleaning up	:	For large spills, pr ment to keep mate be pumped, store Clean up remainin bent. Local or national r posal of this mate employed in the c mine which regula Sections 13 and 1	absorbent material. ovide dyking or other appropriate contain- erial from spreading. If dyked material can recovered material in appropriate container. og materials from spill with suitable absor- egulations may apply to releases and dis- rial, as well as those materials and items leanup of releases. You will need to deter- tions are applicable. 5 of this SDS provide information regarding tional requirements.

Section 7: Handling and storage

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	:	If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advice on safe handling	:	Do not get on skin or clothing.
		Do not breathe vapours or spray mist.
		Do not swallow.
		Avoid contact with eyes.
		Handle in accordance with good industrial hygiene and safety
		practice, based on the results of the workplace exposure as- sessment
		Keep container tightly closed.
		Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place.

Version 4.10	Revision Date: 16.10.2020	SDS Number: 26218-00017	Date of last issue: 23.03.2020 Date of first issue: 29.10.2014		
Cond	itions for safe storage	Wash contamin The effective op engineering cor appropriate deg industrial hygien use of administ	not eat, drink or smoke. ated clothing before re-use. peration of a facility should include review of ntrols, proper personal protective equipment, yowning and decontamination procedures, ne monitoring, medical surveillance and the rative controls. y labelled containers.		
Materials to avoid		 Store locked up. Keep tightly closed. Store in accordance with the particular national regulations. Do not store with the following product types: Strong oxidizing agents 			

Section 8: Exposure controls/personal protection

Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Sucrose	57-50-1	WES-TWA	10 mg/m3	NZ OEL
		TWA	10 mg/m3	ACGIH
Corifollitropin Alfa	195962-23-3	TWA	8 µg/m3 (OEB 4)	Internal
		Wipe limit	80 µg/100 cm ²	Internal

Engineering measures	:	All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Essentially no open handling permitted. Use closed processing systems or containment technologies. If handled in a laboratory, use a properly designed biosafety cabinet, fume hood, or other containment device if the poten- tial exists for aerosolization. If this potential does not exist, handle over lined trays or benchtops.
Personal protective equipme	ent	
Respiratory protection Filter type Hand protection	:	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection. Particulates type
Material	:	Chemical-resistant gloves
Remarks Eye protection Skin and body protection	: :	Consider double gloving. Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols. Work uniform or laboratory coat.
		Additional body garments should be used based upon the
