

## **Desloratadine / Pseudoephedrine Formulation**

Version	Revision Date:	SDS Number:	Date of last issue: 10.10.2020
2.7	09.04.2021	2111466-00010	Date of first issue: 23.10.2017

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Trade name : Desloratadine / Pseudoephedrine Formulation

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- : Pharmaceutical stance/Mixture

### 1.3 Details of the supplier of the safety data sheet

Company	:	Organon & Co. 30 Hudson Street, 33nd floor 07302 Jersey City, New Jersey, U.S.A
Telephone	:	551-430-6000
E-mail address of person responsible for the SDS	:	EHSSTEWARD@organon.com

### 1.4 Emergency telephone number

215-631-6999

### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

### Classification (REGULATION (EC) No 1272/2008)

Specific target organ toxicity - repeated exposure, Category 1

H372: Causes damage to organs through prolonged or repeated exposure.

### 2.2 Label elements

### Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms	:	
Signal word	:	Danger
Hazard statements	:	H372 Causes damage to organs through prolonged or repeated exposure.
Precautionary statements	:	Prevention:P264Wash skin thoroughly after handling.P270Do not eat, drink or smoke when using this product.
		<b>Response:</b> P314 Get medical advice/ attention if you feel unwell.

Version	Revision Date:	SDS Number:	Date of last issue: 10.10.2020
2.7	09.04.2021	2111466-00010	Date of first issue: 23.10.2017

### Hazardous components which must be listed on the label:

Bis[[S-(R<sup>\*</sup>,R<sup>\*</sup>)]-( $\beta$ -hydroxy- $\alpha$ -methylphenethyl)methylammonium] sulphate

### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

### **SECTION 3: Composition/information on ingredients**

### 3.2 Mixtures

### Components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification	Concentration (% w/w)
Bis[[S-(R*,R*)]-(β-hydroxy-α- methylphenethyl)methylammoniu m] sulphate	7460-12-0 231-243-2	Acute Tox. 4; H302 Acute Tox. 4; H332 STOT RE 1; H372 (Central nervous system) STOT RE 1; H372 (Cardio-vascular system)	>= 20 - < 30
Disodium EDTA, dihydrate	6381-92-6	Acute Tox. 4; H332 STOT RE 2; H373 (Respiratory Tract)	>= 1 - < 10
Citric acid	77-92-9 201-069-1	Eye Irrit. 2; H319	>= 1 - < 10

			so. Evacuate area.			

### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

••••••••••••••••••••••••••••••••••••••	daubunour and one gourd broosan ee
Personal precautions :	Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
6.2 Environmental precautions	
Environmental precautions :	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
6.3 Methods and material for conta	inment and cleaning up
Methods for cleaning up :	Sweep up or vacuum up spillage and collect in suitable con- tainer for disposal. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable.

Sections 13 and 15 of this SDS provide information regarding

certain local or national requirements.

### 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

### **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

Technical measures	: See Engineering measures under EXPOSURE
	CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	: Use only with adequate ventilation.
Advice on safe handling	: Do not breathe dust, fume, gas, mist, vapours or spray.
	Do not swallow.
	Avoid contact with eyes.
	Avoid prolonged or repeated contact with skin.
	Wash skin thoroughly after handling.

Version 2.7	Revision Date: 09.04.2021	SDS Nun 2111466-		Date of last issue: 10.10.2020 Date of first issue: 23.10.2017		
Hygiene measures		practi sessr Do no Take enviro : If exp flushi place nated The e engin appro indus	<ul> <li>Handle in accordance with good industrial hygiene and sa practice, based on the results of the workplace exposure a sessment</li> <li>Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to environment.</li> <li>If exposure to chemical is likely during typical use, provide flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contrated clothing before re-use.</li> <li>The effective operation of a facility should include review of engineering controls, proper personal protective equipment appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls.</li> </ul>

### Derived No Effect Level (DNEL) according to Regulation (EC) No. 1907/2006:

Substance name	End Use	Exposure routes	Potential health ef- fects	Value
Silicon dioxide	Workers	Inhalation	Long-term systemic effects	4 mg/m3

### Predicted No Effect Concentration (PNEC) according to Regulation (EC) No. 1907/2006:

Substance name	Environmental Compartment	Value
Citric acid	Fresh water	0.44 mg/l
	Marine water	0.044 mg/l
	Sewage treatment plant	1000 mg/l
	Fresh water sediment	34.6 mg/kg dry weight (d.w.)
	Marine sediment	3.46 mg/kg dry weight (d.w.)
	Soil	33.1 mg/kg dry weight (d.w.)

### 8.2 Exposure controls

### **Engineering measures**

All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment.

Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices).

Minimize open handling.

### Personal protective equipment

Eye protection : Hand protection	Wear safety glasses with side shields or goggles. If the work environment or activity involves dusty conditions, mists or aerosols, wear the appropriate goggles. Wear a faceshield or other full face protection if there is a potential for direct contact to the face with dusts, mists, or aerosols.
Material :	Chemical-resistant gloves
Remarks : Skin and body protection :	Consider double gloving. Work uniform or laboratory coat. Additional body garments should be used based upon the task being performed (e.g., sleevelets, apron, gauntlets, dis-

## **Desloratadine / Pseudoephedrine Formulation**

Version	Revision Date:	SDS Number:	Date of last issue: 10.10.2020
2.7	09.04.2021	2111466-00010	Date of first issue: 23.10.2017

### 12.6 Endocrine disrupting properties

Product:	
Assessment	: The substance/mixture does not contain components consid- ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

### 12.7 Other adverse effects

No data available

### **SECTION 13: Disposal considerations**

### 13.1 Waste treatment methods

Product	:	Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.
Contaminated packaging	:	Empty containers should be taken to an approved waste han- dling site for recycling or disposal. If not otherwise specified: Dispose of as unused product.

### **SECTION 14: Transport information**

### 14.1 UN number or ID number

Not regulated as a dangerous good

### 14.2 UN proper shipping name

Not regulated as a dangerous good

### 14.3 Transport hazard class(es)

Not regulated as a dangerous good

### 14.4 Packing group

Not regulated as a dangerous good

### 14.5 Environmental hazards

Not regulated as a dangerous good

### 14.6 Special precautions for user

Not applicable

### 14.7 Maritime transport in bulk according to IMO instruments

Remarks : Not applicable for product as supplied.

### **SECTION 15: Regulatory information**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Version 2.7	Revision Date: 09.04.2021	SDS Number: 2111466-00010		last issue: 10.10.2020 first issue: 23.10.2017

Regula ment a	ation (EC) No 649/2012	of the European Parlia ning the export and imp		Not applicable
Seves	o III: Directive 2012/18/	EU of the European Pa	arliamen	t and of the Council on the control of

major-accident hazards involving dangerous substances. Not applicable

### Other regulations:

Take note of Directive 94/33/EC on the protection of young people at work or stricter national regulations, where applicable.

### The components of this product are reported in the following inventories:

AICS	:	not determined
DSL	:	not determined
IECSC	:	not determined

### 15.2 Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

### **SECTION 16: Other information**

a	ems where changes have been made to the previous version re highlighted in the body of this document by two vertical nes.			
Full text of H-Statements				
H302 : H	armful if swallowed.			
H318 : C	auses serious eye damage.			
	auses serious eye irritation.			
	armful if inhaled.			
	uspected of damaging fertility. Suspected of damaging the nborn child.			
	auses damage to organs through prolonged or repeated xposure if inhaled.			
H372 : C	auses damage to organs through prolonged or repeated xposure if swallowed.			
H373 : N	lay cause damage to organs through prolonged or repeated xposure.			
	oxic to aquatic life with long lasting effects.
