## **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling **Technical measures** See Engineering measures under EXPOSURE 5 CONTROLS/PERSONAL PROTECTION section. Local/Total ventilation If sufficient ventilation is unavailable, use with local exhaust ventilation. Advice on safe handling Do not get on skin or clothing. Do not breathe mist or vapours. Do not swallow. Avoid contact with eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment Keep container tightly closed. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment. If exposure to chemical is likely during typical use, provide eye Hygiene measures flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use. The effective operation of a facility should include review of engineering controls, proper personal protective equipment, appropriate degowning and decontamination procedures, industrial hygiene monitoring, medical surveillance and the use of administrative controls. 7.2 Conditions for safe storage, including any incompatibilities Requirements for storage Keep in properly labelled containers. Store locked up. Keep areas and containers tightly closed. Store in accordance with the particular national regulations. Do not store with the following product types: Advice on common storage Strong oxidizing agents Organic peroxides **Explosives** Gases 7.3 Specific end use(s) Specific use(s) No data available
