SDS Number:

215-631-6999

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 12	72/2008)
Reproductive toxicity, Category 2	H361fd: Suspected of damaging fertility. Suspected of damaging the unborn child.
Specific target organ toxicity - single ex- posure, Category 1	H370: Causes damage to organs.
2 Label elements	
Labolling (PEGULATION (EC) No 1272/2	008)

2.2

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms	:			
Signal word	:	Danger		
Hazard statements	:	H361fd Suspected of damaging fertility. Suspected of damag- ing the unborn child. H370 Causes damage to organs.		
Precautionary statements	:	Prevention:P201Obtain special instructions before use.P260Do not breathe dust.		

according to Regulation (EC) No. 1907/2006

		P264 P270	in thoroughly after handling. at, drink or smoke when using this product.

P270 Do not eat, drink or smoke when using this product.P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.

Response:

P308 + P311 IF exposed or concerned: Call a POISON CENTER/doctor.

Hazardous components which must be listed on the label: mianserin hydrochloride

2.3 Other hazards

None known.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

Chemical name	CAS-No. EC-No. Index-No. Registration number	Classification	Concentration (% w/w)
mianserin hydrochloride	21535-47-7 244-426-7	Acute Tox. 4; H302 Repr. 2; H361fd STOT SE 1; H370	>= 10 - < 20

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. When symptoms persist or in all cases of doubt seek medical advice.
Protection of first-aiders	:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.

according to Regulation (EC) No. 1907/2006

Version 2.2	Revision Date: 13.09.2019		9S Number: 09317-00006	Date of last issue: 24.04.2019 Date of first issue: 01.05.2017			
In cas	se of eye contact	:		ater as a precaution. tion if irritation develops and persists.			
lf swa	llowed	:	 If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person. 				
4.2 Most i	mportant symptoms ar	nd e	ffects, both acute	and delayed			
Risks		:	Suspected of dam unborn child. Causes damage t	naging fertility. Suspected of damaging the organs.			
4.3 Indica	tion of any immediate i	med	lical attention and	I special treatment needed			
Treatr	ment	:	Treat symptomation	cally and supportively.			
SECTION	I 5: Firefighting meas	sur	es				
5.1 Exting	uishing media						
Suitat	ble extinguishing media	:	Water spray Alcohol-resistant f Carbon dioxide (C Dry chemical				
Unsui media	table extinguishing	:	None known.				
5.2 Specia	al hazards arising from	the	substance or mix	kture			
Speci fightin	5	:	Exposure to comb	pustion products may be a hazard to health.			
Hazaı ucts	rdous combustion prod-	:	Carbon oxides Metal oxides Oxides of phosph Silicon oxides	orus			
5.3 Advice	e for firefighters						
Speci	al protective equipment efighters	:	In the event of fire Use personal prot	e, wear self-contained breathing apparatus. ective equipment.			
Speci ods	fic extinguishing meth-	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do			

according to Regulation (EC) No. 1907/2006

Mianserin Formulation

Version 2.2	Revision Date: 13.09.2019	SDS Number: 1609317-00006	Date of last issue: 24.04.2019 Date of first issue: 01.05.2017	

SECTION 6: Accidental release measures

• •	e equipment and emergency procedures Use personal protective equipment. Follow safe handling advice and personal protective equip- ment recommendations.
6.2 Environmental precautions	
Environmental precautions :	Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
6.3 Methods and material for contai	nment and cleaning up
Methods for cleaning up :	Sweep up or vacuum up spillage and collect in suitable con- tainer for disposal. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Technical measures	: See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation Advice on safe handling	 Use only with adequate ventilation. Do not swallow. Avoid contact with eyes. Avoid prolonged or repeated contact with skin. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as-
	sessment Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures	: If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use.
7.2 Conditions for safe storage	, including any incompatibilities

Requirements for storage : Keep in properly labelled containers. Store locked up. Store in accordance with the particular national regulations.

according to Regulation (EC) No. 1907/2006

8.2 Exposure controls

Engineering measures

Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations.

Personal protective equipment						
Eye protection	:	Wear the following personal protective equipment: Safety glasses Equipment should conform to BS EN 166				
Hand protection						
Material	:	Chemical-resistant gloves				
Remarks	:	Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous sub- stance and specific to place of work. Breakthrough time is not determined for the product. Change gloves often! For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday.				
Skin and body protection	:	Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).				
Respiratory protection	:	If adequate local exhaust ventilation is not available or expo-

2.2	13.09.2019	1609317-00006	Date of first issue: 01.05.2017

SECTION 12: Ecological information

12.1 Toxicity

No data available

12.2 Persistence and degradability

No data available

12.3 Bioaccumulative potential

Components:

mianserin hydrochloride: Partition coefficient: n- : log Pow: 3.36 octanol/water

12.4 Mobility in soil

No data available

12.5 Results of PBT and vPvB assessment

Not relevant

12.6 Other adverse effects

No data available

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product		Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.
Contaminated packaging	:	Empty containers should be taken to an approved waste han- dling site for recycling or disposal. If not otherwise specified: Dispose of as unused product.

SECTION 14: Transport information

14.1 UN number

Not regulated as a dangerous good

14.2 UN proper shipping name

Not regulated as a dangerous good

14.3 Transport hazard class(es)

Not regulated as a dangerous good

14.4 Packing group

Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

according to Regulation (EC) No. 1907/2006

Mianserin Formulation
