tures exceeding 50 °C/ 122 °F.

#### Other hazards which do not result in classification

May displace oxygen and cause rapid suffocation.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture

: Mixture

#### Components

Chemical name CAS-No. Classification Concentration (% w/w) Ethanol# 64-17-5 Flammable liquids, >= 1,8 -<= 2,5 Category 2 Eye irritation, Category 2A 83919-23-7 Reproductive toxicity, >= 0,08 -<= 0,18 Mometasone Category 1B Specific target organ toxicity - repeated exposure (Inhalation) (Immune system, Liver, Kidney, Skin), Category 2 Long-term (chronic) aquatic hazard, Category 1

# Voluntarily-disclosed non-hazardous substance

#### **SECTION 4. FIRST AID MEASURES**

General advice	:	In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.
In case of skin contact	:	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	:	Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.
If swallowed	:	If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.

Version 4.2	Revision Date: 09.04.2021	-	DS Number: 976-00017	Date of last issue: 16.10.2020 Date of first issue: 28.10.2014
and	Most important symptoms and effects, both acute and delayed		Gas reduces oxygen available for breathing.	
	ection of first-aiders	:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists (see section 8).	
Not	es to physician	:		cally and supportively.
SECTIO	N 5. FIRE-FIGHTING ME	ASL	JRES	
Suit	able extinguishing media	:	Water spray Alcohol-resistant Carbon dioxide (C Dry chemical	
Uns med	uitable extinguishing Jia	:	None known.	
Spe figh	cific hazards during fire ting	:	: Exposure to combustion products may be a hazard to he If the temperature rises there is danger of the vessels bu due to the high vapor pressure.	
Haz ucts	ardous combustion prod-	:	Carbon oxides Fluorine compour	nds
Spe ods	cific extinguishing meth-	:	cumstances and t Use water spray t	measures that are appropriate to local cir- he surrounding environment. o cool unopened containers. ged containers from fire area if it is safe to do
	cial protective equipment ire-fighters	:	In the event of fire	e, wear self-contained breathing apparatus. ective equipment.
SECTIO	N 6. ACCIDENTAL RELE	AS	EMEASURES	

Personal precautions, protec- : tive equipment and emer- gency procedures	Evacuate personnel to safe areas. Ventilate the area. Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions :	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g., by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for : containment and cleaning up	Soak up with inert absorbent material. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable
