 repeated exposure 			

GHS label elements

Hazard pictograms	:	
Signal Word	:	Danger
Hazard Statements	:	H350 May cause cancer. H360FD May damage fertility. May damage the unborn child. H372 Causes damage to organs (Liver, Bone, Blood, Endocrine system) through prolonged or repeated exposure.
Precautionary Statements	:	 Prevention: P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P260 Do not breathe dust. P264 Wash skin thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P280 Wear protective gloves, protective clothing, eye protection and face protection.

Version 6.6	Revision Date: 04/09/2021	SDS Number: 17210-00017	Date of last issue: 10/16/2020 Date of first issue: 09/30/2014
		Response:	
		•	F exposed or concerned: Get medical attention.
		Storage:	
		P405 Store loc	sked up.

Disposal:

P501 Dispose of contents and container to an approved waste disposal plant.

Other hazards

Dust contact with the eyes can lead to mechanical irritation. Contact with dust can cause mechanical irritation or drying of the skin. May form explosive dust-air mixture during processing, handling or other means.

: Mixture

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture	
Components	

components			
Chemical name	Common Name/Synonym	CAS-No.	Concentration (% w/w)
Cellulose	No data availa- ble	9004-34-6	>= 10 - < 30 *
Estradiol	No data availa- ble	50-28-2	>= 1 - < 5 *
17-Hydroxy-6-methyl- 19-norpregna-4,6- diene-3,20-dione 17- acetate	No data availa- ble	58652-20-3	>= 1 - < 5 *
Talc	Talc (Mg3H2(SiO3)4)	14807-96-6	>= 1 - < 5 *
Titanium dioxide	Titanic anhy- dride	13463-67-7	>= 0.1 - < 1 *

* Actual concentration or concentration range is withheld as a trade secret

SECTION 4. FIRST AID MEASURES

General advice	 In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	: If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	 In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	: If in eyes, rinse well with water. Get medical attention if irritation develops and persists.

Version 6.6	Revision Date: 04/09/2021	SDS Number: 17210-00017	Date of last issue: 10/16/2020 Date of first issue: 09/30/2014		
If swallowed		: If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water.			
Most important symptoms and effects, both acute and delayed		: May cause ca May damage Causes dama exposure.	May cause cancer. May damage fertility. May damage the unborn child. Causes damage to organs through prolonged or repeated exposure. Contact with dust can cause mechanical irritation or drying of		
Protec	tion of first-aiders	the skin. Dust contact v : First Aid respo and use the re	with the eyes can lead to mechanical irritation. onders should pay attention to self-protection, ecommended personal protective equipment ential for exposure exists (see section 8).		
Notes	to physician		natically and supportively.		

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	None known.
Specific hazards during fire fighting	:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Carbon oxides Nitrogen oxides (NOx)
Specific extinguishing meth- ods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
Special protective equipment for fire-fighters	:	In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- : tive equipment and emer- gency procedures	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal protective equipment recommendations (see section 8).
Environmental precautions :	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for : containment and cleaning up	:	Sweep up or vacuum up spillage and collect in suitable container for disposal. Avoid dispersal of dust in the air (i.e., clearing dust surfaces

Version 6.6	Revision Date: 04/09/2021	SDS Number: 17210-00017	Date of last issue: 10/16/2020 Date of first issue: 09/30/2014		
		with compressed air). Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.			
SECTION	7. HANDLING AND ST	ORAGE			
Tech	nical measures	causing an exp Provide adequ	y may accumulate and ignite suspended dust losion. ate precautions, such as electrical grounding r inert atmospheres.

			TWA	10 mg/m ³ (Titanium dioxide)	ACGIH

Engineering measures

2

Minimize workplace exposure concentrations. Apply measures to prevent dust explosions. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). If sufficient ventilation is unavailable, use with local exhaust ventilation.

Dust formation may be relevant in the processing of this

Version 6.6	Revision Date: 04/09/2021		lumber: -00017	Date of last issue: 10/16/2020 Date of first issue: 09/30/2014

Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

SECTION 15. REGULATORY INFORMATION

The ingredients of this product are reported in the following inventories:

AICS	:	not determined
DSL	:	not determined
IECSC	:	not determined
