Version 3.4	Revision Date: 10.10.2020	SDS Number: 818367-00010	Date of last issue: 23.03.2020 Date of first issue: 22.07.2016		
		P333 + P313 vice/ attention	lical advice/ attention if you feel unwell. If skin irritation or rash occurs: Get medical ad- Take off contaminated clothing and wash it before		
		Disposal:			
	P501 Dispose of contents/ container to an approved wa disposal plant.				
Other	r hazards which do n	ot result in classifica	ation		
		can lead to mechanica mixture during proces	l irritation. ssing, handling or other means.		

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

Components

eempenenie		
Chemical name	CAS-No.	Concentration (% w/w)
Cellulose	9004-34-6	>= 10 -< 20
Peppermint oil	8006-90-4	>= 2,5 -< 5
Starch	9005-25-8	>= 1 -< 5
Rizatriptan	145202-66-0	>= 1 -< 3

SECTION 4. FIRST AID MEASURES

General advice	:	In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If inhaled	:	If inhaled, remove to fresh air. Get medical attention.
In case of skin contact	:	In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	:	
If swallowed	:	
Most important symptoms and effects, both acute and delayed	:	Causes mild skin irritation. May cause an allergic skin reaction. May cause damage to organs through prolonged or repeated exposure if swallowed. Dust contact with the eyes can lead to mechanical irritation.
Protection of first-aiders	:	
Notes to physician	:	Treat symptomatically and supportively.

SAFETY DATA SHEET

Rizatriptan Orally Disintegrating Formulation

Versi 3.4	on Revision Date: 10.10.2020	SDS Number: 818367-00010	Date of last issue: 23.03.2020 Date of first issue: 22.07.2016		
SECT	TION 5. FIRE-FIGHTING ME	ASURES			
Suitable extinguishing media			Alcohol-resistant foam Carbon dioxide (CO2)		
	Jnsuitable extinguishing nedia	: None known.			
	Specific hazards during fire ighting	concentrations potential dust	ng dust; fine dust dispersed in air in sufficient s, and in the presence of an ignition source is a explosion hazard. ombustion products may be a hazard to health.		
	Hazardous combustion prod- ucts	: Carbon oxides Nitrogen oxide			
	Specific extinguishing meth- ods	cumstances a Use water spr	ning measures that are appropriate to local cir- nd the surrounding environment. ay to cool unopened containers. maged containers from fire area if it is safe to do		
	Special protective equipment or fire-fighters	: In the event of	fire, wear self-contained breathing apparatus. protective equipment.		
SECT	TION 6. ACCIDENTAL RELE	ASE MEASURES			
t	Personal precautions, protec- ive equipment and emer- gency procedures	Follow safe ha	protective equipment. Indling advice (see section 7) and personal ipment recommendations (see section 8).		
E	Environmental precautions		to the environment. r leakage or spillage if safe to do so.		

 Local authorities should be advised if significant spillages cannot be contained.

 Methods and materials for
 :
 Sweep up or vacuum up spillage and collect in suitable

Retain and dispose of contaminated wash water.

containment and cleaning up containment and cleaning up avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SECTION 7. HANDLING AND STORAGE

- **Technical measures**
- : Static electricity may accumulate and ignite suspended dust

Version 3.4	Revision Date: 10.10.2020	SDS Number: 818367-00010	Date of last issue: 23.03.2020 Date of first issue: 22.07.2016			
Local/Total ventilation Advice on safe handling		and bonding, or i Use only with ad Do not get on sk Do not breathe d Do not swallow. Engineering measures

: All engineering controls should be implemented by facility design and operated in accordance with GMP principles to protect products, workers, and the environment. Containment technologies suitable for controlling compounds are required to control at source and to prevent migration of the compound to uncontrolled areas (e.g., open-face containment devices).

Version 3.4	Revision Date: 10.10.2020	SDS Number: 818367-00010	Date of last issue: 23.03.2020 Date of first issue: 22.07.2016

ACGIH AR OEL	USA. ACGIH Threshold Limit Values (TLV) Argentina. Occupational Exposure Limits
ACGIH / TWA AR OEL / CMP	8-hour, time-weighted average TLV (Threshold Limit Value)

AIIC - Australian Inventory of Industrial Chemicals; ANTT - National Agency for Transport by Land of Brazil; ASTM - American Society for the Testing of Materials; bw - Body weight; CMR -Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation: DSL - Domestic Substances List (Canada): ECx - Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; ERG - Emergency Response Guide; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China: IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships: n.o.s. - Not Otherwise Specified; Nch - Chilean Norm; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NOM - Official Mexican Norm; NTP - National Toxicology Program; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No

Version	Revision Date:	SDS Number:	Date of last issue: 23.03.2020
3.4	10.10.2020	818367-00010	Date of first issue: 22.07.2016

1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; TCSI - Taiwan Chemical Substance Inventory; TDG - Transportation of Dangerous Goods; TSCA - Toxic Substances Control Act (United States); UN - United Nations; UNRTDG - United Nations Recommendations on the Transport of Dangerous Goods; vPvB - Very Persistent and Very Bioaccumulative; WHMIS - Workplace Hazardous Materials Information System

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
