

## **Joe Azzinaro**

Global Biosimilars Commercial Lead

Joe is focused on maximizing Organon's current biosimilars portfolio working with teams around the world and leading efforts to expand the portfolio to enable sustained growth for the business.

Prior to joining Organon, Joe spent nearly two decades at Merck, known as MSD outside the U.S., where he held positions in corporate strategy, commercial new products, global marketing, and public affairs. He served as the global commercial lead for the biosimilars franchise overseeing a multi-market, cross-functional team for several major biosimilar product launches across the U.S. and Europe. Previously, he worked across women's and general health products, and led the commercial assessment for the acquisition of Afferent Pharmaceuticals.

Joe has a B.A. from Lafayette College and an M.B.A. from Columbia University.

**About Organon** Organon is a global healthcare company formed to focus on improving the health of women throughout their lives. Organon offers more than 60 medicines and products in women's health in addition to a growing biosimilars business and a large franchise of established medicines across a range of therapeutic areas. Organon's existing products produce strong cash flows that support investments in innovation and future growth opportunities in women's health and biosimilars. In addition, Organon is pursuing opportunities to collaborate with biopharmaceutical innovators looking to commercialize their products by leveraging its scale and presence in fast growing international markets.

Organon has a global footprint with significant scale and geographic reach, world-class commercial capabilities, and approximately 10,000 employees with headquarters located in Jersey City, New Jersey.
