

Rebecca Lowell Edwards

Chief Communications Officer

Becky is an accomplished communications executive with a track record of success in both corporate and nonprofit sectors. With a passion for narrative change, she has dedicated her career to fostering stakeholder engagement to achieve business and societal impact. This background suits her particularly well in her role as chief communications officer at Organon.

Becky's career began in journalism, where at Dow Jones she moved from administrative assistant to reporter at The Wall Street Journal and then ultimately, the business side. Her career has taken her from the U.S. Northeast to London and Geneva for roles with GE and the International Olympic Committee, respectively. She has led global teams operating in more than 200 countries and, more recently, a team at the American Civil Liberties Union focused on defending democracy and civil rights. Her journey at some of the globe's most iconic organizations has honed her ability to tell compelling stories that protect and enhance reputations.

She has a B.S. in humanities from Georgetown University's School of Foreign Service and an M.B.A. in media management from Fordham University. In her free time, Becky also works to advance education and skills training by serving on the boards of the Page Society and mentoring women of color.

About Organon Organon is a global healthcare company formed to focus on improving the health of women throughout their lives. Organon offers more than 60 medicines and products in women's health in addition to a growing biosimilars business and a large franchise of established medicines across a range of therapeutic areas. Organon's existing products produce strong cash flows that support investments in innovation and future growth opportunities in women's health and biosimilars. In addition, Organon is pursuing opportunities to collaborate with biopharmaceutical innovators looking to commercialize their products by leveraging its scale and presence in fast growing international markets.

Organon has a global footprint with significant scale and geographic reach, world-class commercial capabilities, and approximately 10,000 employees with headquarters located in Jersey City, New Jersey.
