

Charlotte Owens

Head of Medical Affairs & Outcomes Research

Charlotte is responsible for the global medical strategy and support of marketed and pipeline products, including outcomes research. Additionally, she develops and fosters relationships with external organizations and experts to ensure that our products continue to meet market needs and yield desired patient outcomes.

Charlotte brings over a decade of experience in the pharmaceutical and medical device industry, more than 20 years as a practicing, board-certified obstetrician and gynecologist and a global lens to sustainably improving health equity and delivering patient care. Before joining Organon, she was Vice President and Head of the Center for Health Equity & Patient Affairs at Takeda. She has also served as a leader in clinical development and medical affairs at AbbVie, Kimberly-Clark and Johnson & Johnson. In those roles, she oversaw the direction, planning, execution, and interpretation of clinical trial data. Since 2014, she has served as an Adjunct Assistant Professor of Clinical Gynecology and Obstetrics at Morehouse School of Medicine.

Charlotte has a B.S. in physiology from the University of California Davis and an M.D. from the University of Michigan. She completed her internship and residency in Obstetrics and Gynecology at the Henry Ford Health System. She is a Fellow of the American College of Obstetricians and Gynecologists.

About Organon Organon is a global healthcare company formed to focus on improving the health of women throughout their lives. Organon offers more than 60 medicines and products in women's health in addition to a growing biosimilars business and a large franchise of established medicines across a range of therapeutic areas. Organon's existing products produce strong cash flows that support investments in innovation and future growth opportunities in women's health and biosimilars. In addition, Organon is pursuing opportunities to collaborate with biopharmaceutical innovators looking to commercialize their products by leveraging its scale and presence in fast growing international markets.

Organon has a global footprint with significant scale and geographic reach, world-class commercial capabilities, and approximately 10,000 employees with headquarters located in Jersey City, New Jersey.
