

## Jeremy Sowers

Global Fertility Commercial Lead

Jeremy is part of the Commercial Leadership Team overseeing the global Fertility franchise. Before this role he ran the commercial business for Organon Taiwan, leading a high-performance team in the transformation and growth of our Taiwan business. Under his leadership, the organization designed and implemented a new GTM model, developed new capabilities, and expanded in priority business areas to significantly grow Organon sales.

Throughout his biopharmaceutical career spanning over twenty years, Jeremy has held numerous roles spanning a broad range of marketing and commercial leadership positions. He was Chief Marketing Officer at MSD for the Asia Pacific region, based in Singapore. In this role, he led several capability-building initiatives for MSD across the region, including the development of a Digital, Data & Analytics strategy and design and implementation of a new Marketing Operations model. His previous experience includes working on multiple franchises at the global level and in the U.S. market across positions in sales, market research, brand management, and franchise leadership. With a strong focus on strategic marketing and the execution of commercial strategies, Jeremy has been able to successfully navigate through change and disruption, rallying best in class teams around a shared vision to deliver business results.

Jeremy has a B.S. from the University of Missouri and an M.B.A. from the Thunderbird School of Global Management at Arizona State University.

**About Organon** Organon is a global healthcare company formed to focus on improving the health of women throughout their lives. Organon offers more than 60 medicines and products in women's health in addition to a growing biosimilars business and a large franchise of established medicines across a range of therapeutic areas. Organon's existing products produce strong cash flows that support investments in innovation and future growth opportunities in women's health and biosimilars. In addition, Organon is pursuing opportunities to collaborate with biopharmaceutical innovators looking to commercialize their products by leveraging its scale and presence in fast growing international markets.

Organon has a global footprint with significant scale and geographic reach, world-class commercial capabilities, and approximately 10,000 employees with headquarters located in Jersey City, New Jersey.
